# Our Soul Tree

*By*

*G.A. Blackburn*

**In our Soul Garden grows a special tree, That's called the Soul Tree.**

**It stands tall and proud and is filled with the faces of our family with who we share our destiny.**

**It is a living tribute and legacy of our past and roots, that tells the story of who we are and have become**

**You can see the faces of the old and the young here on these limbs we are all part of the one.**

**A family we have chose to exist with in love and memories for eternity.**

**Each year we will gather to remind of us of the choices we made.**

**And share our destinies with love and joy.**

# The Spirit Tree

*By*

*G.A. Blackburn*

**In our Soul Garden grows a special tree, That's called the Spirit Tree.**

**It stands tall and proud but it is stark and bare except for the souls who are there.**

**It is a shadow of our family tree, our next home on the eternal journey we call life.**

**I can see the faces of those from the past that reflect so many memories we shared and have.**

**There is a bench under the tree were I like to sit and talk with these family spirits.**

**They remind where we are all destined to be and have a branch on the Spirit Tree.**
