John is a very special soul, my father-in-law and mentor. I love him so much especially for him sharing his beautiful angel – Katherine, with me.

John was a craftsman in every sense of that word from Houses he built (5) to furniture and gifts. He made decorations for the church events and I think he would have built the church if it wasn't already there. Some of his best work is the friendships he made over his 103 years. I miss him a lot but know he is with his girls, Grace and Katherine for a well earned eternal reward
